

# MAPOWER II

TWO POST LIFT FOR CARS AND LIGHT COMMERCIAL VEHICLE

# FIRST PROVIDER IN THE WORLD IN THE WORKSHOP FITTER SEGMENT WITH OPTION OF IOT MODULE (INTERNET OF THINGS):

High operational availability of the lifting platform through connection to the MAHA cloud service MUCS:

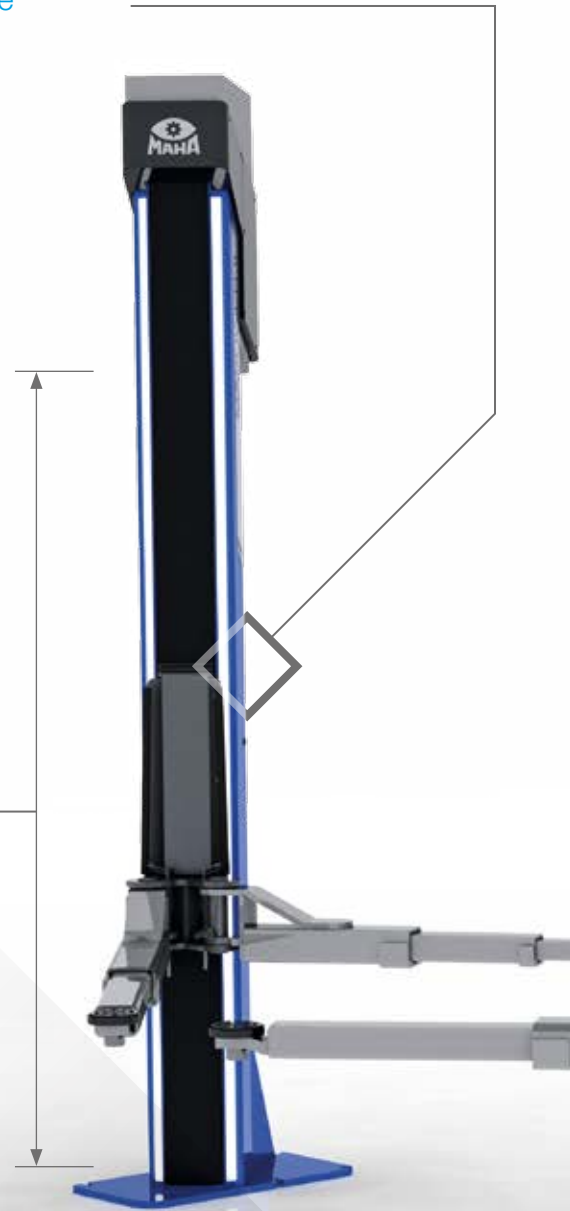

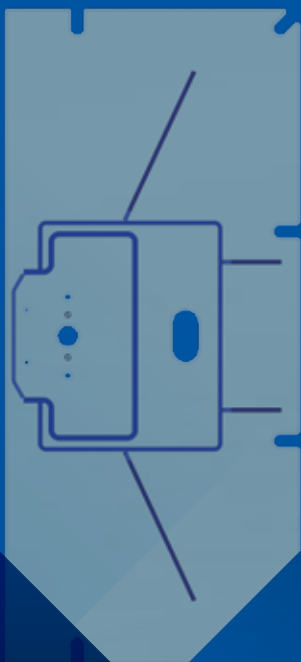

- ◆ Telemetry data transfer in line with the MQTT protocol for remote maintenance
- ◆ Predictive maintenance messages
- ◆ Service call via lifting platform keypad

Optional additional control field in the counter column increases efficiency

Lifting height in excess of 2 m facilitates repair work and accessibility

Simple installation – no base frame or cross bar

Exceptional lifting column rigidity

A space-saving operating and control unit integrated in the lifting column with 16-symbol text display for operating and service instructions, featuring a robust membrane keypad and large buttons, combines design with optimum user convenience

Acoustic signal control as pinch protection (CE-stop) enhances occupational safety

Service USB interface on the control board enables quick and easy maintenance access

The microprocessor control for monitoring synchronous running and all safety functions is highly accurate and transforms the MAPOWER II into a **state-of-the-art** product

# MAPOWER-DESIGN

- ◆ MAPOWER LED ambient light supports ambient lighting
- ◆ MAPOWER motor covers
- ◆ MAPOWER logo on columns
- ◆ High-quality powder coating with special paintwork available on request
